

Country Fire Service Volunteers Association

WHS Committee Report CFSVA AGM 23rd October 2023 Stack Stevens

What a roller coaster the last 12 months have been with the turnover of staff at the share frustration led to the committee sending a letter to the CFS Chief Officer with our concerns and frustrations (see attached response).

To date we still have outstanding commitments:

- P2 masks and a way forward.
- There was also a proposal that brigades to do their own station/site inspections taking the onus away from SAFECOM.
- Big push this year on mental health and training of peer support persons across the state.
- The need for improved 1st aid training due to CFS being default if SAAS are late or CFS first on scene.
- A review of the drugs burning policy.
- Ongoing with regards to level 3 safety officer training.
- Safety bulletins for floods and working around waterways.
